

## ELECTRIC ARTICULATED BOOM LIFT

Model Name: EN2628ZE

**CUSTOMIZABLE, COMFORTABLE & EFFICIENT**

The Model EN2628ZE self-propelled Articulated boom lift is designed for flexible use in all work environments. Its **load-sensitive hydraulic system** ensures smooth, energy-efficient performance while maintaining high reliability and control.

Powered by a **four-wheel AC electric drive**, it delivers long working hours with a **48V/420Ah battery** or optional lithium system. With **non-marking off-road tires** and an **axle balance system**, it provides excellent traction and smooth movement on any terrain.

# Advantages:

## Load-Sensitive Hydraulic System

- Delivers smooth, responsive movement during operation.
- Helps save energy by using power only when needed.

## Four-Wheel AC Electric Drive

- Provides strong, dependable performance in daily use.
- Designed for long working hours without loss of efficiency.

## High-Capacity 48V / 420Ah Battery

- Allows longer working time on a single charge.
- Minimizes charging breaks and keeps work moving.

## Non-Marking Off-Road Tires

- Offer excellent grip across different terrains.
- Move smoothly without leaving marks on surface.

## Axle Balance System

- Keeps the machine stable during operation.
- Ensure comfortable controlled movement at all times.
